Summary :

I'm a computer science graduate. I'm passionate about designs and creating stunning designs. I always learn new things and develop my skills in order for me to be able to compete with the best people. I love competition and the the spirit of competition that's why I have to develop my skills and work even harder to achieve that.

Education :

I graduated with B.S Degree from Thebes academic year 2019
GPA 2.5 / 4.

Experience :

Mar. 2019 - Aug. 2019 Ajwal, Freelancer

- Ajwal is a B2B travel booking portal that connects with third party APIs which include onlinebooking capabilities (hotels - flights - trains).
- I was responsible for processing the static data (JSON response)
- Tech used : Python

Projects :

*every project will have its used Tech, rather than making a section for my skills.

May. 2021 - Present. Spell Tracker app

- Spell Tracker is a game overlay that helps the player to gather more information to make his/her next decision.
- I was responsible for everything.
- Tech used : Typescripts, API integration, SASS.
- link : [Spell Tracker](#)

Jun 2021. Where in the world?

- Where in the world? is the website to help users to know more about a world's countries.
- I was responsible for everything.
- this project I add because I designed a simple routing at it and really helped me learn more about the routing process.
- Tech used: VanillaJs, API integration, SASS.
- link: [Where in the world?](#)

Jul 2021. Waves

- Waves is a Media Player.
- I was responsible for everything.
- Tech used: reactjs, SASS.
- link: [Waves](#)
